

Kaydence - 2003

Happy, friendly, active, and kind are just a few ways to describe Kaydence.

Kaydence, who also goes by Kayde enjoys spending most of her time outdoors, whether it's in the garden, riding horses, swimming, or going for walks. Kayde is very social and describes herself as having "a lot of friends" whom she likes listening to music and going shopping with.

She has a love for all animals but her favorite are dogs. Kayde strongly desires to find her forever family – while she would love to live on a family farm with lots of animals it's not a must.

Kayde will be entering the seventh grade; she enjoys school and benefits from an Individualized Education Plan (IEP). Kayde also benefits from individual and group therapy which will need to continue after placement. The caseworker has recommended a transition that will include multiple visits with the family prior to placement. All family types are encouraged to inquire – Kayde will do well with other children in the home or as an only child.

She will also do well with both single-parent and two-parent families.

Out of state families, interested in learning about Kaydence should have a current homestudy prior to inquiring. Both, homestudied and non-homestudied Nevada families are encouraged to inquire.

For more information about Kaydence or the adoption process, please email Tracey Somers at tsomers@dcfs.nv.gov
